TRANSPORTATION ADVISORY BOARD MEETING Summary Notes - DRAFT

Wednesday, September 23, 2020

6:00 pm – Virtual Meeting

Members Present: Kim Bria, Andrew Mallory, Rich Faith, Greg DiLoreto, Anthony Lairson

Members Absent: Mark Adams, Mary Baumgardner, Riad Alharithi

Staff Present: Lance Calvert, Darren Wyss, Chris Meyers

Guests in Attendance: Nick Polenske - Kittelson, Mark Butorac - Kittelson

1. Call to Order and Introductions

Called to order by Kim Bria

2. Review and approval of January 2020 Summary Notes

Greg motioned to approve Summary Notes from January 2020, Andrew seconded. Unanimous approval.

3. Business:

a) Presentation from the city consultant Kittelson of a draft of the Willamette Falls Drive Concept Plan. The presentation provided a general overview of the corridor that will start at the Tualatin River at Fields Bridge Park and will join the current project in the Willamette area. The project will then continue from 10th Street all the way along Willamette Falls Drive to Hwy 43. ODOT's plans for the widening I-205 were taken into consideration when this concept plan was created. A work session with the planning commission will occur in late October, followed by a planning commission hearing in November.

b) GO Bond Project Update

All of the city's GO Bond projects are all located on the City of West Linn website. The city is moving forward on several projects as mentioned on the website. There has been a lot of discussion on the back in angle parking on Willamette Falls Drive that the city council pushed forward. City staff is working hard to respond to those. City staff is working to get all of the appropriate markings, signage, and paving done for the back in angle parking. COVID and the wildfires have seriously impacted the schedule. PGE had to remove themselves to work on wildfire areas and staff hope to have them back onsite as soon as possible. The project is moving forward.

4. Capital Projects Update

Staff is planning on bringing to Council well as to the Transportation Advisory Board the results of the pavement management report. Staff is actively pursuing other capital projects outside of the GO Bond projects including some design work for the upcoming year aimed at road and utility improvements. One constraint on the road improvements is the lack of water utility funds for capital improvements. Some streets that staff are targeting for road improvements need to have some water main replacements done before the street improvements can be done. Some of the city's water system while adequate to serve water, would break during road construction. The water rates in the city are some of the lowest in the area and staff has to balance the street improvement efforts with funding.

5. Board/Discussion/Announcements

Metro and ODOT are producing a study on a local jurisdictional transfer agreement including Hwy 43.

6. Public Comments

None

7. Adjournment

Rich motion to adjourn, 2nd by Anthony, vote passed. Meeting adjourned at 7:11PM.
